4	1	D	<p>The e-learning initiative started by APS, Bolaram is a great effort to reach out to its students during such social emergency. This is the most constructive way of utilising technology in a child's life.</p> <p>The teachers are communicating through voice recording and also sending video related to the subject. Few YouTube videos are also being shared by the respective subject teachers on new concepts. Children are reciprocating to this kind of learning well and understanding the subject matter with the help of parents. Request the teachers to appear in the video so that younger children can relate with you better.</p> <p>Suggest you to share some art &amp; craft ideas for children of std 1.</p> <p>As a parent, I'm satisfied with the e-learning classes. Thank you</p> <p>Lt Col Ashutosh Srivastava F/o Diva Srivastava (1 D)</p>

26	6	A	<p>Feedback: In my view ma'am, the online classes have come as a breath of fresh air for my child who's thoroughly enjoying the sessions. She's avidly listening to all the instructions and doing the assignments regularly on her rough books. Till now, we haven't faced any issues, either with the instructions or the content. So far so good ma'am:).</p> <p>Suggestion: If a day (Sat) can be dedicated only for clarifying doubts, that would enable children to focus better in the forthcoming classes. Children can post their doubts to the concerned teacher separately during the week and the teacher could answer them on a Saturday( in addition to the regular class that day).</p> <p>Mr Shailendra Rao F/o Suhani Rao VI A</p>

63	10	C	<p>Good afternoon ma'am, Duly sending you the feedback...</p> <p>If I throw light on this method of online learning, I would like to highlight both pros and cons... In accordance with my perseverance, learning through WhatsApp is more like a one-sided conversation. Yes, it is a common as well as a conventional platform but I would suggest something more effective. Through a student's perspective, teaching should be done in such a way that grasps the child's attention and makes him sit for hours on end. For this, I would suggest an online platform that solves the purpose of face to face conversation. Also worksheets should continue to be sent on WhatsApp as it is conventional..</p> <p>For me, clearing the basics is as important as writing answers and notes. So it would be better if more time could be allotted to learning if and when the institution finds a better platform.</p> <p>Concluding, the current method has its pros and cons. And with respect to all the teachers who are constantly putting their efforts, the major issues of this problem can more effectively be dealt with if are seen throughout a student's perspective...</p> <p>Lt Col SYED FARAZ ZAIDI F/o Faiz Class XC</p>

67	12	B	<p>Today's apparent situation is hidden from no-one, this outbreak of COVID-19 or Corona Pandemic has resulted in shutting down of institutes like schools and educational facilities, but the school's initiative with combination of their teachers for educating students via online classes has just left us spellbound. So that the completion of the syllabus does not become a burden on the students later whenever the schools reopen. They have also devised a way of checking whether the students are attending the classes regularly by taking a regular roll count of the students present and who all have completed their notes. By also giving them worksheets they evaluate even if the students are able to comprehend what is being taught. Whatever being today's scenario the teachers are still giving in their 100 percent for their students..... So hats off to them and regards from the parents.....</p> <p>M/o Sehajdeep Singh XII B (MPC)</p>
